

Sprint 1 Plan - CSE 115A - Software Methodology

SlugShare

Jasdeep Matharu, Samarth Shastry, Nithin Danday, Jordyn Salazar, Hannah Dinh

Completed: January 26th, 2026 | Revision v3.0

- **Goal:** Create a working Login page and dashboard where requests can be made and seen.
- **Task listing, organized by user story**

User story 1: As a user, I want to sign up and log in so I can securely access the application (5 points)

- **Task 1:** Setup login page 1 hour
- **Task 2:** Setup GoogleAuth 1 hour
- **Total for user story 1:** 2 hours

User story 2: As a user, I want a dashboard where I can see my points balance, a button to view other people's requests, a button to make requests (8 points)

- **Task 1:** Dashboard backend 3 hours
- **Task 2:** Dashboard UI 1.5 hours
- **Total for user story 2:** 4.5 hours

User story 3: As a user, I want to view my profile information and edit my phone number, which can be shared with the donor/requester for communication purposes. (3 points)

- **Task 1:** Create Navbar 1.5 hours
- **Task 2:** Add profile in navbar that can dropdown profile info 1.5 hours
- **Task 3:** Add phone number user input box 1 hour
- **Total for user story 3:** 4 hours

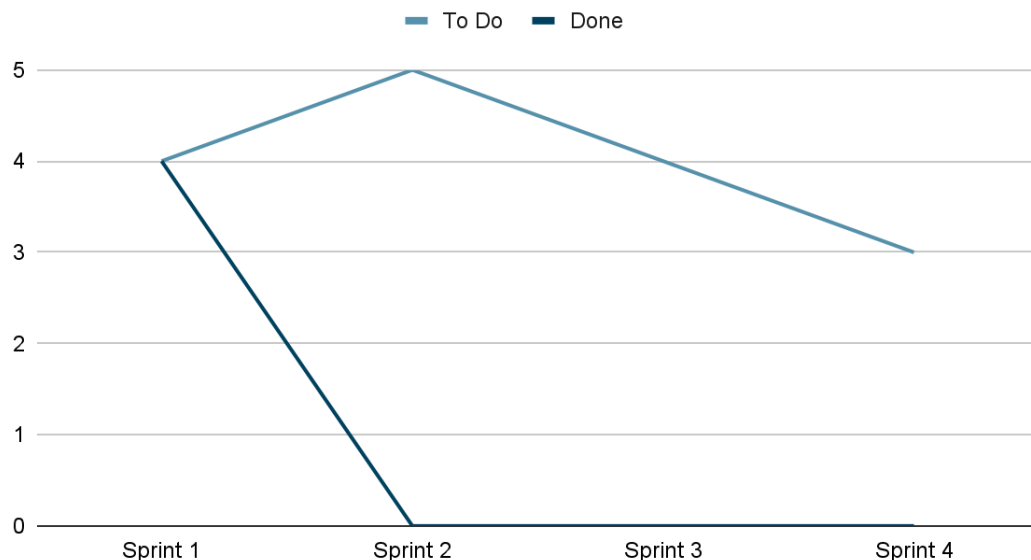

User story 4: As a requester, I want to be able to remove/delete my requests before they get accepted (3 points)

- **Task 1:** Add button to already made request 45 minutes
- **Task 2:** Add functionality to the button to remove the requests 1.5 hours
- **Total for user story 4:** 2 hours 15 minutes

- **Team roles:**
 - Samarth Shastry: Developer
 - Nithin Danday: Developer
 - Jasdeep Matharu: Developer
 - Jordyn Salazar: Scrum Master, Developer
 - Hannah Dinh: Project Owner, Developer
- **Initial task assignment:**
 - Samarth Shastry:

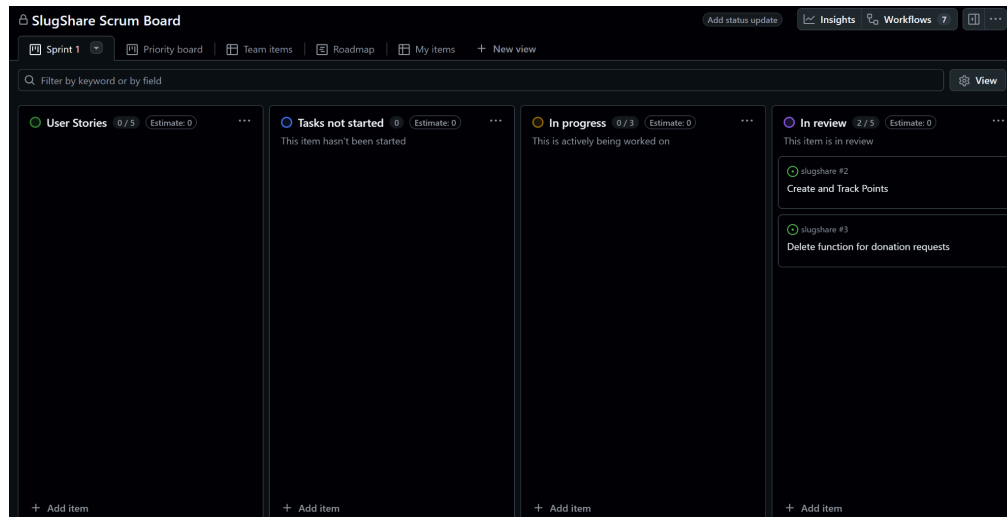

- **User Story:** As a user, I want a dashboard where I can see my points balance, view other people's requests, make requests (1)(3)
 - **Initial task:** Create the dashboard
- Nithin Danday:
 - **User Story:** As a user, I want to sign up and log in so I can securely access the application (2)
 - **Initial task:** Implement GoogleAuth login
- Jordyn Salazar & Jasdeep Matharu:
 - **User Story:** As a requester, I want to be able to cancel and delete my requests before they get accepted (3)
 - **Initial Task:** Create the delete button
- Hannah Dinh:
 - **User Story:** As a user, I want to view my profile information and edit my phone number, which can be shared with the donor/requester for communication purposes. (3)
 - **Initial task:** Create a navbar and profile dropdown
- **Initial burnup chart:** A graph giving the initial burnup chart for this sprint and is labeled as such with sprint number and project name and is located in the lab.

Initial Burnup Chart (Sprint 1)

- **Initial scrum board:** This board has four columns, titled user stories, tasks not started, tasks in progress, and tasks completed. Index cards or post-it notes representing the user stories and the tasks for this sprint should be placed in the user stories, tasks not started, and tasks in progress

columns. Tasks associated with a user story should be placed in the same row as the user story.

User Stories	In Progress	In Review	Done
As a user, I want to sign up and log in so I can securely access the application As a user, I want a dashboard where I can see my points balance, a button to view other people's requests, a button to make requests As a requester, I want to be able to cancel and delete my requests before they get accepted As a user, I want to view my profile information and edit my phone number, which can be shared with the donor/requester for communication purposes.			

- **Scrum times:**

Meeting with TA: Monday 3pm-4pm [Zoom](#)

Team meetings: MWF after class
