

Sprint 2 Plan - CSE 115A - Software Methodology

SlugShare

Jasdeep Matharu, Samarth Shastry, Nithin Danday, Jordyn Salazar, Hannah Dinh

Completed: February 9th, 2026 | Revision v1.0

- **Goal:**
- **Task listing, organized by user story:**

User story 1: As a requester, I want to see food locations and their prices and hours of operation. (1 point)

- **Task 1:** Add data for locations (Name, type of location, Price Range, Hours of Operation) (2 hrs)
- **Task 2:** Put data in an Accordion (1.5 hr)
- **Task 3:** Build the "Location Card" components that display the price for dining halls and a status badge (Open/Closed). (2.5 hrs)
- **Task 4:** Filter locations whether they are currently open or not (2 hrs)
- **Total for user story 1:** 8 hrs

User story 2: As a donor, I want to receive notifications for new requests so that I can accept or decline them. (5pts)

- **Task 1:** Add notifications data model + migration (1hr)
- **Task 2:** Create notifications API endpoint (1hr)
- **Task 3:** Wire notifications into request accept/decline flow (1hr)
- **Task 4:** Adjust points/user/request APIs for notification behavior (1hr)
- **Task 5:** Build Inbox UI page (1hr)
- **Task 6:** Add notifications preview on dashboard (1hr)
- **Task 7:** Linked work items (1hr)
- **Total for user story 2:** 7 hrs

User story 3: As a requester, I want to indicate whether I'm okay meeting in person or receiving a QR code. (3 points)

- **Task 1:** Add button/toggle (30 min)
- **Task 2:** Have preference display on requests (30 min)
- **Task 3:** Update db schema (1 hour)
- **Total for user story 3:** 2 hour

User story 4: As a donor, I would like to be able to generate a QR code linked to my Slug Points to share with requesters (8 points)

- **Task 1:** Create login flow for GET token and storage (3 hrs)
- **Task 2:** Server Setup to watch purchasing (2 hrs)
- **Task 3:** Generation and assignment (1hr 30 min)
- Total for user story 4: 6 hr 30 minutes

User story 5: As a donor/requester, I want a tool that lets me filter out existing/queued requests based on distance, their chosen dining hall/market/restaurant location, the amount of points being requested, and whether the requestor would be okay with meeting irl (5 points)

- **Task 1:** Ability to select filters (2 hours)
- **Task 2:** From filter selection, add and remove requests on the dashboard (3 hours)
- **Task 3:** Reset the filters (40 minutes)
- **Total Time for tasks:** 5 hours 40 minutes

- **Team roles:**

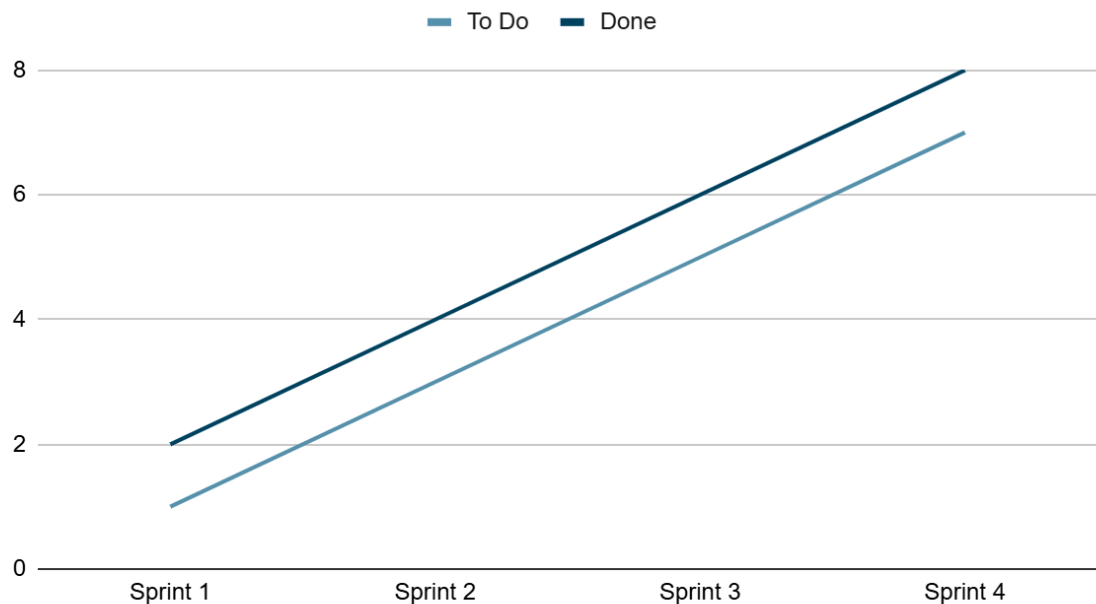

- Samarth Shastry: Developer
- Nithin Danday: Scrum Master, Developer
- Jasdeep Matharu: Developer
- Jordyn Salazar: Developer
- Hannah Dinh: Project Owner, Developer

- **Initial task assignment:**

- Samarth Shastry:
 - User Story: As a donor, I want to receive notifications for new requests so that I can accept or decline them. [Donor Receives notifications based on requests](#)
 - Initial task: Add notifications data model + migration (1 hr)
- Nithin Danday:
 - User Story: As a donor I want to generate, a QR code linked to my slugpoints so that I can share with requestors
 - Initial task: Create login flow for GET token and storage (3 hrs)
- Jasdeep Matharu:

- User Story: As a requester, I want to indicate whether I'm okay meeting in person or receiving a QR code. [Indicate Meeting Preference](#)
 - Initial task: Add button/toggle (30 min)
 - Jordyn Salazar:
 - User Story: As a donor/requester, I want a tool that lets me filter out existing/queued requests based on distance, their chosen dining hall/market/restaurant location, the amount of points being requested, and whether the requestor would be okay with meeting irl
 - Initial Task: Task 1: Ability to select filters (2 hr)
 - Hannah Dinh:
 - User Story: [Prices and Hours of Operation](#)
 - Initial task: Task 1: Add data for locations (Name, type of location, Price Range, Hours of Operation) (2 hrs)
 - Infrastructure and technical chores:
 - Unit testing setup with Vitest
 - Extract request validation logic
- **Initial burnup chart:**

Burnup Chart (Sprint 2)

- **Initial scrum board:**

TO DO 8

As a requester, I want to see the status of my request so that I know whether it is pending, accepted, or timed out.

SCRUM-7 3 JM

Testing library set up

SCRUM-21 3

Auth redirect bugfix

SCRUM-22 2

As a donor, I want to receive notifications for new requests so that I can accept or decline them.

SCRUM-5 8

As a donor, I want to generate a QR code linked to my SlugPoints so that I can share with requesters.

SCRUM-6 13

As a requester, I want to indicate whether I'm okay meeting in person or receiving a QR code.

SCRUM-4 2 JM

As a requester, I want to see locations, prices, and hours of operation.

SCRUM-3 3 HD

As a donor/requester, I want a tool that lets me filter out existing/queued requests based on distance, their chosen dining hall/market/restaurant location, the amount of points being requested, and whether the requestor would be okay with meeting irl
